

B

From the Chairman's Desk:

It is not easy being young in today's world; the world is much more competitive than it was ever before. The foremost problem faced by the youngsters of today is related to their choosing and managing a career, which requires more serious thinking than many of us are willing to admit. Each should develop an understanding of themselves, including their values, interests, aptitudes, personal traits and desired lifestyles. As educational planners, we at PWS have realized the speed of change in the education and thereby we respond to these growing demands and challenges through dynamic planning. This is seen throughout our academic institutions stretching from KG to PG.

Pailan World School was started in 2005 with my vision of 'the world in your classroom' and since then it has witnessed stupendous success and gained immense popularity. At Pailan we take in untapped talent and prepare each one to become dynamic participants in the world of the 21st century. We believe every student is meritorious and has aptitude and ability. It is our pledge to empower them, hone individual skills, and make each to be a lifelong learner.

Throughout our programs we also recognize the importance of educating the whole child. It is essential that all students achieve academic merit, but there is a dimension beyond that. Students must be engaged in experiences which expand their horizons and widen their skills. For this, at Pailan World School we offer an unmatched range of sporting and cultural programs to broaden the interests and talent of all. From such programs we can be sure that our students are not one dimensional, but are rounded citizens ready and confident to face the world ahead.

Chairman

Pailan World School

From the Principal's Desk

Treading the International Path:

Alone in this part of Eastern India, Pailan World School leads the way in offering true international education. Let me explain.

All over the world, established international schools aim first at establishing a truly rounded education for the students enrolled there. Rather than compress a student's day into a narrow cycle of hard academic slog, international schools look at the complete picture. The child should be developed in all regards – academic, sporting, the arts, music and recreational activities. All aspects need to be given time, so that at the conclusion of his/her schooling, the student emerging from Class 12 will be knowledgeable, comfortable in all kinds of sports, able to enjoy music and the other arts and be at ease in conversation with people from all walks of life.

To do this, a school needs to have the facilities, the space and the time to provide complete development for the students of the school. Pailan World School excels at all this. We have unequalled space and facilities not matched anywhere in West Bengal. We offer the programs which provide each child with the opportunity to grow in many directions. Over our many acres of campus, we have a full sized cricket field, football field, basketball court, swimming pool, six tennis courts, junior playground, badminton courts, and indoor sporting stadium under construction. Moreover, we have a residential Cricket Academy and a residential Tennis Academy.

To round off our activities, we offer programs in Eastern and Western music, Eastern and Western dance, guitar, violin and the visual arts. All these are taken by specialist coaches and teachers. The third international dimension is the provision of enough time. Our school day runs longer than just about all schools in West Bengal. This is consistent with authentic international schools everywhere. Our school day is extended so that our students can truly benefit from the facilities and the activities throughout the day and are concluded with a solid session of supervised academic revision at the finish.

From all of this emerge students who come through, truly international in outlook with a well rounded set of skills and accomplishments. They can face the world with confidence knowing that they can know more and do more.

Principal

Pailan World School
